

RECEIVER FOR BILLION DOLLAR HOLDINGS, PLAN

Southern Pacific's Oil Land Under Court Consideration.

SAN FRANCISCO, Oct. 13.—Receivership for the Southern Pacific's extensive California oil land holdings in the San Joaquin valley, estimated to be worth approximately one billion dollars will be asked by federal agents in the United States district court in a few days, according to statements made here today by persons in close touch with the progress of the government's suit to recover the railroad company's holdings.

The matter of a receivership, it is expected, will come before United States District Judge Benjamin F. Blewett, in the form of a motion and it was said that his decision will be based on an exhaustive report on the company's property by L. H. G. Wolf, expert of the bureau of mines, on special duty with the department of justice.

Man Who Brought German Submarine Across Atlantic in Seventeen Days

Captain Hans Rose is commander of the German submarine U-53, which suddenly appeared at Newport, R. I., last Saturday and announced that he had brought it across the Atlantic in seventeen days. Captain Rose was in port only three hours and then disappeared, but his activities Sunday in sinking five ships started the whole country.

The sinking of the five ships has brought up new problems for America to face, the allies protesting against the privileges of United States harbors being granted to a submarine while the presence of the submarine may result virtually in a blockade that may prove intolerable.
